Joyel,

We are planning to collect both water column and sediment samples. Can both sample types go to the lab or should we bring the sediment samples back to our lab?

Thanks,
Erica

Hi Erica and Doug,

I'm still working on the lab info for you. We are madly working to get our results from the initial sampling reviewed and out. I suspect this email went to Neil Taylor and to Mike Zucker at UDEQ but I wanted to be sure you had it also asap.

Subject: Gold King Mine Release - pH data

Folks,

pH data information is posted on the website – www.epaosc.org/goldkingmine. Click on documents (either at the top of the website or right side of page) and it should be top of the list. More data to come. Thank you, Gina
